Education

United Institute Of Technology, Prayagraj	2024-202
Bachelor of Technology, Computer Science and Engineering(AI ML)	8.12 SGPA
L.D.C Public School, Prayagraj	
12 th Standard 2023 CBSE	65.83%
Nandi Vani Public School, Kaushambi	
10 th Standard 2021 CBSE	67.8%

Summer Training

Full Stack Development using MERN **July, 2026**

- Developed web applications using MongoDB, Express.js, React.js, and Node.js.
- Built responsive full-stack projects with REST APIs and MongoDB database integration.

Core Java with Collection Framework **August, 2025**

- Learned Core Java, OOP, Exception Handling, File Handling, Multithreading, Java Collections Framework, and GUI development using Swing/AWT.
- Developed Java desktop applications using Swing/AWT.

Projects

1. **Student Library System**
 - Developed a desktop-based system to simplify library operations such as student registration, book issue/return, and maintaining student and book records, reducing manual record management.
 - Built using Core Java, Java Collections Framework, File Handling, and Java Swing/AWT to manage data and provide a user-friendly graphical interface.
2. **Link Loop (Social Media Platform)**
 - Developed a social media platform to enable users to register, log in, manage profiles, create posts, and interact with user-generated content through a centralized web application.
 - Built using Node.js, Express.js, MongoDB, HTML, CSS, JavaScript, and EJS, with backend APIs for user/post management and MongoDB for storing application data.
 - And currently working on its features enhancements.
3. **Shop Nest(Ecommerce Website)**
 - Developed an e-commerce platform to simplify online product browsing, shopping cart management, user authentication, and order placement, providing users with a complete online shopping experience.
 - Built using Node.js, Express.js, MongoDB, HTML, CSS, JavaScript, and EJS, with RESTful APIs for managing users, products, carts, and orders, and EJS for server-side rendering.
4. **Some Mini Projects are (Frontend Project Only):** 1. [Tic Tac Toe](#) 2. [Future Ride 2026](#)

Skills

1. C / Java / Python
2. Web Developer | Full Stack Developer
3. Data Structure and Algorithms and OOPs
